

A book review

Title: Eric Clapton`s autobiography

Characters: Eric Clapton and his friends

Author: Eric Clapton

Plot: His life

Genre: Autobiography

Opinion: Fascinating

Narrator: The author

Recommendation: Mostly for teenagers

Recently, I have read Eric Clapton`s autobiography.

It`s an autobiography written by himself and it`s fascinating. The action takes place in America since he was born (1945) until the present times.

The main character is himself, Eric Clapton, who is an English rock & blues singer. The story tells about his life and what he did to become a better guitarist.

I would recommend this book to be read by all the teenagers who want to learn something about life and to find out that, if you have a dream, no matter which one, it can come true if you want to.
