

Informal letter

Bucharest, 1st of May 2019

Dear Susan,

It was wonderful hearing from you. I'm glad that you are well and that you are enjoying life in your new house.

Spring is here too and I am so looking forward to seeing all the bright colors of the flowers I planted in my garden. I put the rose you gave me in the front garden. This way, everybody will see it when they come to visit me.

What do you like about your new house? You must send some pictures so that I can see where you live now. How is your cat coping with the move? My aunt mentioned that some cats run away to their previous house when their owners move to a new house. She also said something about putting butter on their paws to make them stay at their new house.

Well, I hope to hear from you soon!

Best wishes,

John
